

BENEFITS OF USING DEHUMIDIFICATION:

- ❌ Hold the blast to speed up schedule.
- ❌ Work during rainy, foggy, or cold outdoor conditions
- ❌ Maintain proper conditions inside any area to prevent flash rusting or corrosion.
- ❌ Working around the clock in consistent, ideal conditions.
- ❌ Apply coating across entire area at one time. No need to blast, clean and prime daily.
- ❌ Heating aid in coatings curing during application.

CONTROL THE ENVIRONMENT. CONTROL THE OUTCOME.

At DH Tech, we design and manufacture high-quality climate control equipment while delivering efficient, cost-effective solutions. Our technicians provide expert service from installation through maintenance and repair, ensuring performance at every stage.

With 24/7 support, we respond quickly across the U.S. and internationally, bringing reliable solutions wherever your project is located.

We combine advanced technology with real-world expertise, including:

- ❌ Temperature & humidity control (blended systems)
- ❌ Cross-technology integration knowledge
- ❌ Flexible fuel options: propane, electric, and natural gas
- ❌ Continuous monitoring systems

We're committed to excellence in every aspect of our service.

Industrial Climate Control Solutions

INDUSTRIAL

SERVICES

DH Tech has temporary dehumidifiers and temperature control equipment in the Petrochemical, Municipal, Marine, and Power Industries for over 40 years.

We have used our equipment to maintain conditions during:

- ⦿ Internal blasting and coatings of tanks
- ⦿ Turnarounds and shutdowns
- ⦿ Corrosion prevention during an outage
- ⦿ Controlled temperature for worker comfort
- ⦿ Catalyst removed projects

DESICCANT-STYLE DEHUMIDIFIERS

Electric / Gas Heat

DH 1,000 cfm.....	28 amps / NA
DH 2,000 cfm.....	55 amps / NA
DH 3,500 cfm.....	80 amps / 12 amps
DH 6,500 cfm.....	168 amps / 17 amps
DH 9,000 cfm.....	256 amps / 30 amps
DH 12,000 cfm.....	280 amps / 49 amps

REFRIGERANT-STYLE DEHUMIDIFIERS

Cooling / with Reheat

DX 6 ton.....	15 amps / 50 amps
DX 12.5 ton.....	25 amps / 90 amps
DX 25 ton.....	60 amps / 168 amps
DX 50 ton.....	115 amps / 224 amps
DX 80 ton.....	225 amps / NA

SPECIALIZED COOLING EQUIPMENT

DEEP DRYING REFRIGERANT

5,000 cfm.....	50 amps
6,000 cfm.....	50 amps
7,000 cfm.....	50 amps
8,000 cfm.....	50 amps
HCU Hybrid.....	79 amps
Spot Cooler.....	1.5 ton / 115V
Spot Cooler.....	5 ton / 220V

HEATERS

Inline Heaters

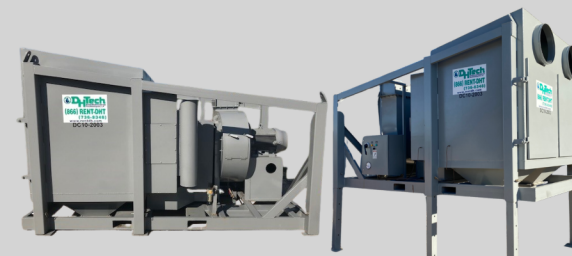

15kw.....	18 amps
30kw.....	36 amps
60kw.....	73 amps
150kw.....	182 amps

Controlled Blower Heaters

60kw.....	80 amps
150kw.....	195 amps

Indirect Fired Heaters

IDF 500.....	20 amps / 110V
IDF 700.....	50/30 amps / 240 / 480V
IDF 2M.....	60 amps / 480V

DUST COLLECTORS

2,500 cfm.....	12 amps
5,000 cfm.....	25 amps
10,000 cfm.....	48 amps
20,000 cfm.....	76 amps
Negative Air Machines.....	12 amps

* Note: Some equipment has been modified and the above specifications may vary due to years manufactured and custom project requirements.
